OUR VALUES

Design. Passion. Performance.

Our OWA brand is synonymous worldwide with high-quality ceiling systems that combine design and functionality in a unique way. Together with designers, specifiers, distributors and specialist contractors, OWA always ensures greater wellbeing in every room of every building, whether in places of learning, offices, retail spaces, healthcare environments, hospitality, sports and leisure or production facilities.

Real added values.

OWA creates atmosphere: using our products adds value to a room. Our products help to create a pleasant indoor climate by optimizing acoustics. Comfort enables focused action, style ensures a modern, creative environment. This is how the highest demands for modern design and optimal room acoustics, fire protection, hygiene, moisture resistance and indoor air quality are met.

Resource efficiency.

The responsible use of RAW materials forms the basis of our environmentally conscious actions. As a company certified according to the international environmental management standard 14001, we are committed to pursuing defined environmental goals.

All OWA mineral ceilings from the OWAlifetime collection produced after 1st October 1997 are 100% recyclable and can be returned to us. They are used in the production of new ceiling tiles while adhering to strict quality control procedures.

Tradition. Innovation. Lifestyle.

For more than seventy five years, OWA creates unique ceiling systems, that provide lasting safety and wellbeing. With its own sales companies and a close-knit partner network, OWA is active worldwide. Together, we strive for perfect ceiling systems.

High-quality recipes.

Mineral wool is one of the most thoroughly researched and carefully controlled building materials in the world. Awarded the RAL quality seal for products made of mineral wool, it fulfils all national and international regulations.

OWAcoustic tiles are finished with solvent-free dispersion paints that only use naturally occurring pigments. The mineral ceilings we produce are unique in terms of their acoustic performance, durability, workability, fire protection and fire behaviour.

Excellent achievements.

Performance meets design: our versatile product range proves that it is not just the optimal functionality of our state-of-the-art ceiling systems that wins customers over. We develop design-oriented solutions that meet the highest expectations of contemporary interior design. Together with renowned designers, we create ceiling concepts that shape our industry and set new standards.

Benefits at a glance

- High sound absorption up to 90%
- Reaction to fire A2-s1,d0
- Wide range of colours
- 100% recyclable
- Resistance to fire up to REI60
- Very fine plaster
- Quick and efficient to install
- High sound insulation $D_{n,f,w} = 40$ dB and $R_w = 23$ dB

OWAplan - simply better

Optimised acoustics, comprehensive reaction to fire and seamless design combined in one ceiling system: That`s OWAplan. No matter if in restaurants, foyers, museums, galleries, schools, shopping arcades, hotels or in private homes, - OWAplan impresses everywhere and ensures pleasant room acoustics.

Fine to very fine plaster surfaces in white or coloured give ceilings a pure elegance. And, of course, it has a "non-flammable" building material classification according to EN 13501-1, so nothing can catch fire. We love it when an OWAplan ceiling system works.

PRIVATE SPHERE

just.
noticeably.
better.

OWAplan ceiling systems are not only at home in commercial construction. They also set standards in private homes. In addition to fast construction times and high flexibility, they impress with a discreet, aesthetic appearance that blends harmoniously into the most modern living concepts.

OWAplan offers the possibility of retroactively optimising the acoustics of existing private homes, without this addition being visible. With OWAplan, we create the basis for comfortable living and timeless interior design.

*Classic architecture.
Timeless design.*

Timeless elegance meets modern functionality in this renovated 1930s villa. Smooth, flawless surfaces and purist design create an atmosphere of simple perfection.

OWAplan provides the ideal setting for historic buildings and classic furniture by seamlessly integrating the joint-free ceiling system into the architecture, ensuring pleasant room acoustics and noticeably more well-being.

The seamless OWApplan ceiling system combines space and elegant design with the highest technical performance values. The very fine plaster structure gives this ceiling a timeless and strikingly beautiful elegance.

The extensively renovated property combines modern functionality with historical charm – a prime example of a successful renovation of an existing building.

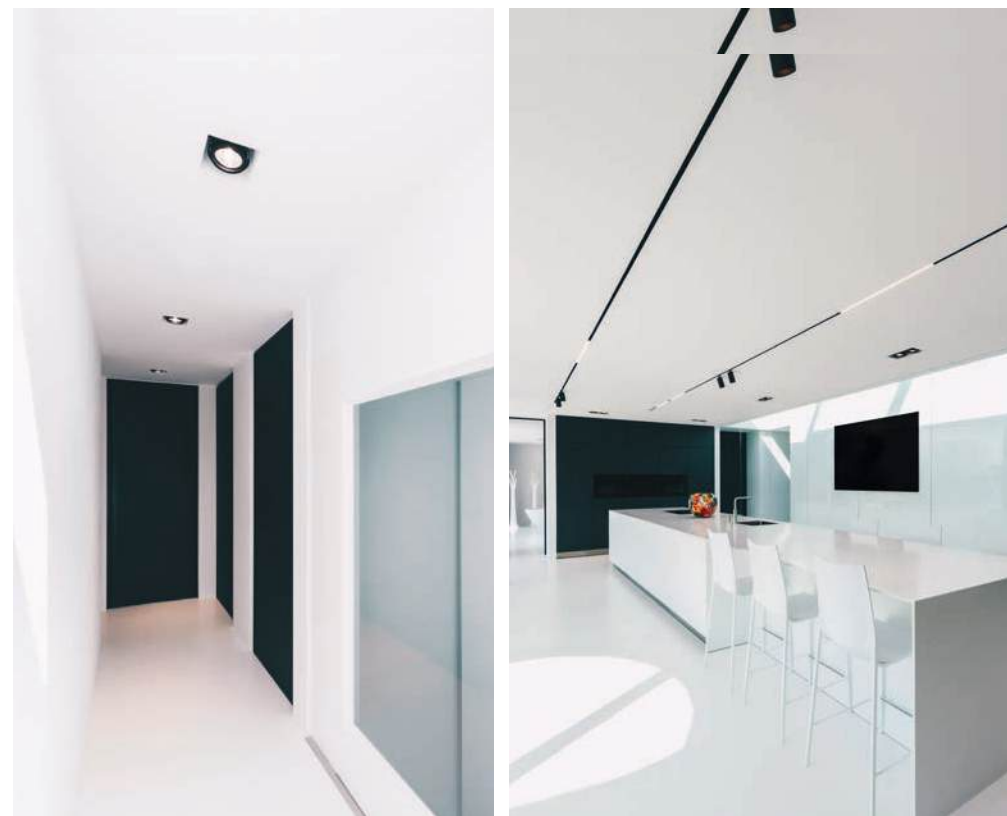

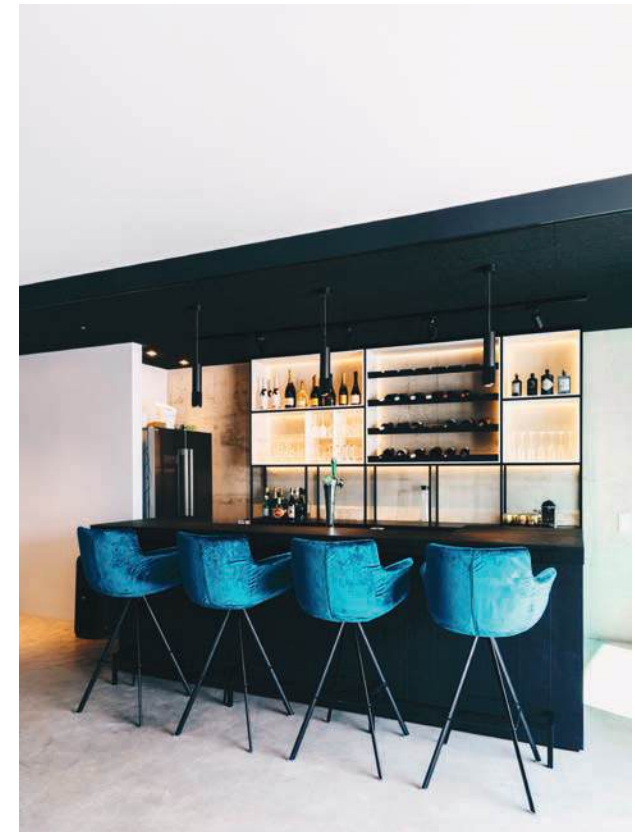

Villa
Zeeland | Netherlands

seamless. timeless. elegant.

OWAplan contributes to the minimalist design of the rooms in this private villa in Zeeland. Seamless surfaces create a timeless elegance and room acoustics that invite you to relax.

The clear lines of the architecture open up the room to the garden and create a welcoming, spacious atmosphere.

REDUCED TO THE
ESSENTIALS

PEDAGOGICALLY VALUABLE

A more enjoyable teaching and learning environment.

OWAplan also provides a valuable solution for the education sector by promoting concentration through optimised acoustics.

OWAplan adapts to any room situation and contributes to a significantly improved learning atmosphere. With many years of experience in the education sector, we offer customized acoustic solutions for classrooms, lecture halls, laboratories and much more.

OWAplan

WE

UNDERSTAND

EACH OTHER

Museum
Voorlinden | Netherlands

A pleasant atmosphere in auditoriums and lecture halls is an important factor for successful events. In the specific case of the Museum Voorlinden premises, balanced acoustics are important to clearly and distinctly convey content and thus improve the listening experience.

SPACE FOR PERSONAL DEVELOPMENT

The seamless OWAplan ceiling system and the minimalist furnishings at the Museum Voorlinden help visitors to focus on what is important.

*Focused dialog
at the highest level*

In these Dutch university buildings, exchange, education and research merge into a unique spatial concept. Here, students, researchers and professionals find ideal conditions for deepening their knowledge, working in peace and quiet and finding inspiration for new ideas.

A thoughtful design not only creates space for focused learning, but also a relaxed atmosphere. Carefully coordinated acoustic solutions ensure that every thought remains clear – whether during intensive study phases or relaxed reading.

This space becomes a hub for ideas, a place where innovation and focus come together. This creates an environment that sustainably supports personal and professional development.

DESIGNING INSTEAD OF ORGANISING

purposeful.
focused.
comitted.

Whether it's phone calls with customers, meetings with visitors or highly frequented waiting areas: the acoustic requirements in the office and administration segment are as diverse as the tasks performed there.

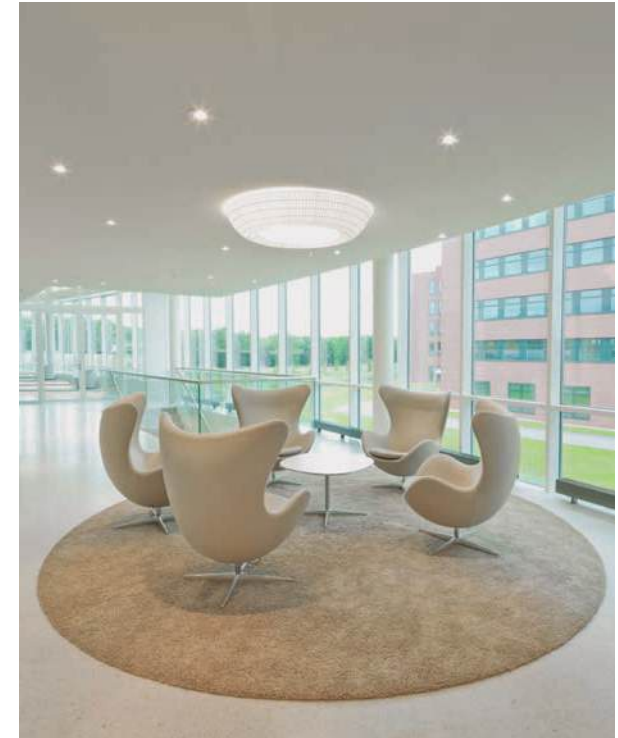

OWAplan helps people in offices and administrative buildings to work comfortably and with focus, even when the workload is at its highest.

SIMPLY.
BETTER.
RECEPTION.

Eneco
Rotterdam | Netherlands

Welcome to Eneco in Rotterdam. Where design meets functionality and light fills the room, you are sure to receive a friendly welcome.

*set
limitless
accents*

With its attractive black-and-white contrasts, OWAplan sets delightful accents in other rooms of this Dutch administrative building. The seamless ceiling system combines clear aesthetics with optimal acoustics for concentrated work.

A design reduced to the essentials creates timeless rooms with a clear structure. Unlimited design freedom meets durability and functionality. For a working environment that seamlessly combines design and function in a unique way.

FORM FOLLOWS FUNCTION

The flowing transitions of the OWAplan mineral ceilings in the municipal administration center Houthalen are reflected in the architectural design of the balustrade, which flows into the upper gallery.

The carefully executed transitions and the elegant design of the balustrade create a harmonious connection between the upper and lower levels.

Municipal administration center
Houthalen Helchteren | Belgium

With OWApplan, you can rely on a ceiling system that seamlessly integrates into any architecture and gives every room a distinctive elegance. The joint-free surface of the OWApplan ceiling system pleasantly recedes into the background, elegantly allowing the picturesque red walls to take center stage.

OWAplan also reveals its unique character in combination with exposed concrete: the soft, seamless aesthetics create a fascinating contrast to the rough structure of the concrete. The result is a modern, puristic look that impresses.

Administration center
Koksijde | Belgium

OFFICE & ADMINISTRATION

PURE
ACOUSTHETICS

Behind the historic façade of Osnabrück's town hall are state-of-the-art conference rooms, where systematic work is guaranteed.

Seamless OWAplan ceilings create perfect conditions for landmark decisions in the council chamber of the city of Osnabrück.

SIMPLY.
DECIDEDLY.
BETTER.

OWAplan ceiling systems promote concentrated work. The use of OWAplan will certainly not be the last trend-setting decision by the city of Osnabrück.

THE EAR

comfortable.
inviting.
hospitable.

The requirements of the hotel and catering industry are as diverse as our solutions. Thanks to our many years of expertise and in-depth industry knowledge, we have an extensive catalogue of solutions for hotel rooms, conference areas, receptions, lobbies, bars, restaurants and cafés.

In this segment, too, acoustics play an important role. OWAplan offers guests a pleasantly relaxed atmosphere and ensures optimised speech intelligibility. Individual solutions for all connected high humidity rooms, washrooms, corridors and escape routes complete our range.

DINES WITH

*The ear
dines with...*

In hotels and restaurants, not only the design but also the acoustics have a decisive influence on the well-being of guests. With the seamless mineral ceilings from OWAplan, you combine aesthetics and functionality at the highest level.

OWAplan ceiling systems provide a flawless, homogeneous surface that blends perfectly into the sophisticated architecture of modern hotels and restaurants. Whether in elegant lounges, stylish restaurants or comfortable hotel rooms,

OWAplan ensures a calm, relaxed atmosphere, effectively protected from disturbing noises. The excellent acoustic properties ensure a pleasantly lively atmosphere that is never disturbing.

Hotel Eden
Antibes | France

OWA

**MORE
THAN
ACOUSTICS**

A play of colours and light – art that brings rooms to life. An atmosphere that inspires and delights. The Hilton Amsterdam is a place full of creative energy.

**HIGHLY
DECORATED
ACOUSTIC CEILINGS**
